

Battle Town Council Environment Committee

Estate Management Programme

Procedures will comply with all relevant health and safety at work legislation. The Committee will seek to raise and maintain the awareness and understanding of the relevant legislation relevant to this management programme for all grounds staff.

Procedures will comply with all relevant environmental legislation and will aim to reduce any negative environmental impacts and pollution. The Committee will seek to raise and maintain the awareness and understanding of the environmental impact of this management programme for all grounds staff.

In accordance with Battle Town Council's 2019 'Statement on the Protection of our Environment', the Committee will endeavour to manage the estate in a way that is as **efficient, effective, economical and environmentally friendly** as practical.

For example, seeking to:

- Minimise resource consumption in functions under the management of the Committee (e.g. fuel, power and water).
- Reduce waste generation across functions under the management of the Committee by reusing, recycling and composting whenever possible, along with reducing the volume of waste.
- Conserve, enhance and, if appropriate, restore habitats for wildlife.
