

Carbon Footprint Change Target Report

Battle Civil Parish

10.05.23

Responsibilities

Change Targets	E.S.C.C	R.D.C	B.T.C	C&E Action Plan	Community Group	Individual
1. Housing						
a) Hugely reduced energy demand from buildings, including heritage assets						
b) Smarter & more flexible management of energy demand, including storage						
c) Decarbonised heat delivery						
d) New buildings and developments that achieve net zero emissions						
2. Transport						
a) Reduced private car travel and a comparable increase in active and public transport						
b) A complete shift to electric vehicles (and an end to petrol & diesel cars & vans)						
c) Massively reduced air travel, particularly among frequent flyers						
3. Food & Diet						
a) Altered dietary patterns & reduced food waste						
b) Widely adopted agricultural practices that reduce emissions & increase soil carbon						
4. Goods & Services						
a) Hugely altered consumption patterns, buying less and re-using/repairing more						
b) Decarbonised power generation						
5. Waste						
a) Greatly increased recycling rates to achieve a circular economy model, taking plastics out of the waste stream						
b) Widespread, actively managed and planned carbon storage strategies
